

MEDICATION-ASSISTED TREATMENT (MAT)

Are you or someone you love affected by the opioid epidemic?
Are you interested in learning more about the science of addiction
and how Medication Assisted Treatment (MAT) can help?

MAT is scientifically proven to be the most effective approach in
treating Opioid Use Disorder (OUD). MAT involves the use of medi-
cations to reduce cravings and symptoms of withdrawal in addition
to counseling and peer recovery support.

Stop by, meet our team, and learn about how we are treating
addiction and helping people recover in our community.

We hope to see you there!
